To Whom It May Concern:

As ASB Advisor of student government for Clairemont High School, I have known and worked with Mr. Stojan Mitich for ten years now. Mr. Mitich has always been truly professional and the DJs from Ice House have worked well with our students to provide quality performances for our dances and lunch time activities.

Most know that students can be quite picky about what type of music they want played for their events. The Ice House DJs have always welcomed contact from our students and there are usually several conversations and faxes exchanged to make sure they get what they want. Representatives have even come to the school to meet with the students before an event. The night or day of the event the crew is always there early to set up and trouble shoot. They are always extremely polite and responsive to any of my needs or requests as well.

Ice House has also donated dozens of free lunch performances over the years which help bring fun and excitement to our students. They have also donated free performances for our ASB Conference for San Diego City Schools.

I always know that when I book Ice House I will be rewarded with responsible friendly service. I appreciate all that Mr. Mitich and his company have done for us over the years.

Sincerely,

M. I. Moore
