To whom it may concern:

As a representative of Poway High School's ASB, I know the importance of making our school a comfortable, fun environment, while staying within the guidelines of the school rules. We try to make the students' lunch hour a fun, enjoyable experience, and invite businesses interested in reaching out to the teenager demographic.

One such business is the Ice House, a young adults' dance club with DJs and contemporary music. After working with the Ice House on multiple occasions, we have found its associates to be reliable, committed individuals, who are enthusiastic about the work they do. They entertain the school's students during lunch with music that appeals to everyone, while doing so in an appropriate manner.

Ice House representatives have always been cooperative with and respectful of our school's policies, and work hard to not only entertain, but also motivate our students. The DJs are sure to remind students to clean up their trash after lunch, and get involved with school events. They promote appropriate behavior, and have representatives monitoring the lunch area to maintain a safe, appropriate dance environment.

Most importantly, Ice House DJs are always on time and come prepared with their own supplies. We have yet to have a problem with the music distracting the students from returning to class after lunch, and the DJs are always respectful of the specific amount of time allotted to them during lunch.

The Ice House has proved to be an asset to our program. If you wish to request the services of the Ice House, please contact its offices at (760) 741-5223 or the Poway High School ASB room at (858) 748-0245 ext.5182. Having worked with many organizations as an ASB representative, I have found the Ice House to be a professional organization, worthy of your school's business.

Thank you,
